INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyrights, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst the variety of functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Administration and Registration Division, Companies Division, Patent and Copyright Office, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

LIBRARY

The formation of the Library began in 1904 and until a few years ago it was a general library. However, in recent years it became principally a legal library because of a screening programme that resulted in the transfer of many books to the National Library and elsewhere.

The following collections are in the library:

The Statutes of Canada, of the Provinces and of the United Kingdom;
The Canada Gazette, the London Gazette; Journals and Debates of the
Senate and the House of Commons;

Canadian Law Reports such as, Supreme Court, Exchequer Court,
Dominion Law Reports, Western Weekly Reports, Canadian Annual
Digest, Canadian Abridgment, Canadian Encyclopaedic Digest,
Ontario Reports;

United Kingdom Law Reports such as, Judicial Committee of the Privy
Council Appeal Cases, Chancery Division, Probate Division, Queen's
Bench Division, Weekly Law Reports;

In the miscellaneous category such items as, Encyclopaedias, Bio-
graphies, Year Books and Directories.

During the year, 7,169 publications were received, recorded and shelved. The departmental annual report for 1960-1961 was distributed to 67 different agencies. The customary searches dealing with orders in council, records of appointments, proclamations, statutes, regulations, historical data, biographies, etc. were made for members of this and other departments. Approximately 1,213 books were loaned and 1,709 volumes were consulted.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 808 companies under Part I and 57 corporations without share capital under Part II.

Supplementary letters patent were granted to 607 existing companies and to 19 existing corporations without share capital; 12 certificates were issued to existing companies increasing the amount of consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 1 licence was issued to a foreign mining company to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66 and 68 was 215.

The number of annual summaries submitted under section 125 totalled 13,620.

Certificates of acceptance of surrender of charters were issued dissolving 230 companies under section 29 and 61 charters were returned for cancellation. Advice was received to the effect that 47 companies had gone into bankruptcy or were in process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 4,943 searches undertaken by the Searching Section, of which 4,223 were to determine the availability of suggested corporate names and 720 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 46 boards of trade registered, 20 orders in council issued changing the names of boards of trade and 1 order in council issued changing the boundary of an existing board of trade. There were 3 boards of trade dissolved.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1962.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent, copyright industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

Applications for patents totalled 25,447, an increase of about 3.75 per cent. This is an all time record for the Office. Of the total number of applications filed, 20,141 claimed priority of filing date under the International Convention for the Protection of Industrial Property.

Allowances of applications totalled 21,824. There were 31,129 reports on patentability. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 52,953. During the year 3,123 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution. There were 21,659 patents issued.

The number of deeds entered in the register of assignments was 24,161, an increase of almost 7 percent over last year. This is also, an all time record.

Copies of specifications, drawings and other patent documents to the number of 9,630 were made.

Copyright applications numbered 6,606 and there were 6,479 registrations made. Industrial design applications amounted to 750 and 684 designs were registered; 321 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,887,598.47 an increase of \$53,873.80, from the preceding year.

Receipts from the Patent Branch totalled \$1,858,964.93. This is \$52,685.78 more than last year.

The sale of printed patents brought in a revenue of \$165,866.31.

Copyright Branch receipts were \$28,633.54.

The total expenditure was \$2,582,598.76.

PATENT GRANTS

There were 21,659 patents granted. Of this total 21,618 were issued for the full term of seventeen years and 28 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, 13 patents were issued.

Patents issued to assignees of the whole interest totalled 18,287, jointly to inventors and assignees of part interest 157, and to inventors or legal representatives 3,215.

The number of patents issued to companies was 18,033, to individuals 3,526, and to companies and individuals jointly 100.

Patents where invention was claimed to have been made by two or more inventors totalled 7,064 and by one inventor 14,595.

Of the total, 95 patents were issued to female inventors, to male and female inventors jointly 96, and to male inventors 21,468.

There were 1,844 patents granted to Canadian citizens or companies and 19,815 to patentees who were non-residents of Canada.

There were 40 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fees within the period required by section 75, a total of 744 allowed applications became forfeited. Upon payment of restoration and final fees 177 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 110.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 83 agents were added to the Register. By reason of failure to comply with rule 144, the names of 27 patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto and Vancouver on October 23 and 24, 1961. Nineteen candidates tried the examination and ten were successful. At the close of the year, the names of 1,278 patent agents and patent attorneys appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday of each week. Publication was made in each issue of the principal drawings and claims of patents granted on the day of publication, together with notices and other actions under the Act.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents and designs from patent offices in Australia, Austria, Belgium, Egypt, France, Germany, Great Britain, India, Ireland, Italy, Japan, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Republic of South Africa, Sweden, Switzerland, and the United States of America.

The "Record" was also exchanged for 19 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 20,731 patents during the year for the Office. This figure includes 233 reprints.

During the year, in conjunction with the Queen's Printer, the Office made preliminary arrangements to inaugurate a different method for printing the patents. Some patents were printed by the new method towards the end of the fiscal year and it is expected that all patents issuing after the first of April 1962 will be printed by the new process.

This new method, to be called "MICRO COPY FLOW", involves Xerox reproduction from micro film. It gives an exact reproduction of the original documents, eliminating proof-reading and the possibility of errors. It is expected that the new method will result in a very substantial saving in the cost of printing.

PATENT OFFICE LIBRARY

During the year 1,112 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Pakistan, Sweden, Switzerland and the United States of America. In addition, patent journals, indexes and reports were received from the countries named in the paragraph entitled Patent Office Record above and from Colombia, Czechoslovakia and Yugoslavia.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely:—Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1926, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950, Japan from 1950, and Pakistan from 1959. The Library also contains printed copies of Canadian patents from January 1, 1948 and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 2,134 of March 27, 1962.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 32,298 volumes in all.

MICROFILMING

During the year 32,699 patents were microfilmed. This includes patent No. 413,232 (issue date of June 15, 1943), to patent No. 445,930 (issue date of December 30, 1947). The total number of patents microfilmed is 277,131.

Also microfilmed during the year were the Exemplifications of patents No. 524,700 to 543,599, inclusive, a total of 18,900 sheets.

STAFF

During the year 15 Patent Examiners were appointed. Nine Examiners resigned their positions and one retired on pension. The number of Examiners' positions filled at the end of the year was 116.

The total number of employees in the Patent and Copyright Office on March 31, 1962 was 322.

NEWFOUNDLAND PATENTS

The five applications for the grant of letters patent under the laws of Newfoundland which were pending under Term 20 (3) of the Terms of Union of Newfoundland with Canada at the date of Union are, by failure of the applicants to prosecute the same, deemed to have been abandoned.

Corresponding applications have been filed under the laws of Canada and have matured to patents in each case. In any event, the applicants are protected for the Province of Newfoundland by the said Canadian patents.

SPECIAL DIVISION

The Division dealt with a number of applications requesting royal patronage in the form of permission to use the names of the Queen and other members of the Royal Family, and the prefix "royal". Arrangements were made for congratulatory messages from the Sovereign for 932 sixtieth wedding anniversaries and 119 one hundredth birthday anniversaries.

Requests for recognition of acts of bravery by the award of decorations by Her Majesty the Queen were investigated and submitted to the Decorations Committee. Of the number of submissions received, the Secretary of State recommended and the Queen approved the award of decorations to five Canadian civilians, listed hereunder with the address and date of publication in the Canada Gazette:

Administrative and clerical assistance in connection with these awards and with related matters was given to the Decorations Committee.

The usual arrangements for the printing and distribution of the Speech from the Throne were made for the closing of the fourth session and the opening of the fifth session of the 24th Parliament.

The Secretary of State granted permission for 22 ceremonies held on Parliament Hill or at the National War Memorial.

The Director and the Secretary of the Special Division represented the Department on the Government Hospitality Committee in charge of the visit to Canada in May 1961 of the President of the United States and Mrs. Kennedy, and the Division co-ordinated the arrangements for the arrival ceremony at R.C.A.F. Station Uplands, Ottawa.

Plans co-ordinated by the Special Division for the annual celebration on Parliament Hill of Dominion Day were approved by the Secretary of State.

Arrangements were made by the Special Division for the dinner given on September 25, 1961 by the Secretary of State and Madame Dorion, on behalf of the Government of Canada, in honour of Les Délégués à la Réunion du Comité exécutif de l'Association Internationale pour la protection de la Propriété Industrielle.

The customary arrangements were made from time to time on the occasion of applications received by the Secretary of State from lieutenant-governors for leave of absence from their provinces.

The Guide to Relative Precedence at Ottawa was revised, printed and distributed.

The usual assistance was given in response to numerous written and verbal enquiries concerning aspects of protocol such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, use of royal photographs, flags and armorial bearings, the proposing of toasts and other related subjects.

The Division dealt with requests for the authentication of 108 documents by the Governor General.

Statutes of the provinces received by the department were forwarded to the Department of Justice for examination under section 90 of the British North America Act.

The Division maintained a limited newspaper clipping service for the department.

The Special Division compiled and edited the annual report of the Secretary of State.

BUREAU FOR TRANSLATIONS

Parliamentary and Legal Translations

Translation was made by the respective divisions of the official report of the House of Commons Debates, which covered 8,358 pages, the report of the Senate Debates comprising 1,098 pages, the proceedings of the standing and special committees of both Houses, and the estimates.

The Law Division translated 490 public and private bills with explanatory notes and indexes.

In addition to the day-to-day translation of orders, proclamations, regulations implementing various acts, and indexes, the Bureau's Privy Council Division is responsible for translating international conventions and agreements, and many legal documents for the Privy Council. This division undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders, and other departmental documents. This division is now responsible for an increasing volume of translation on behalf of the Emergency Measures Organization.

The parliamentary divisions also did translation for other governmental bodies and commissions.

Simultaneous interpretation of the House of Commons debates has continued satisfactorily. In September 1961, this service was inaugurated in the Senate and has been functioning successfully. More and more, the interpreters are called upon to do interpretation in parliamentary committees. At the request of various departments, the services of interpreters were loaned for many conferences, such as the Colombo Plan Conference held in Kuala Lumpur (Malaya), the NATO Parliamentary Conference and the Resources-for-Tomorrow Conference. Their services are also required for different events, such as President Bourguiba's visit to Montreal and Ottawa, hearings of the Board of Broadcast Governors, etc. The training of future interpreters is now done by the Bureau for Translations. The Interpretation Service has been detached from the Debates Division and is now under the Administrative Officer of the Bureau for Translations; however, apart from their interpretation duties, the interpreters are called upon to give assistance to the regular translators.

Departmental Translations

The volume of work done by the departmental divisions continues to expand to the point where the staff of some of the divisions will have to be increased.

Foreign Languages

The Foreign Languages Division is always very busy, but some changes in organization have resulted in a reduction in the accumulation of work. The volume of technical and scientific documents in German is increasing.

Translation Done on a Firm Price Basis Outside of the Bureau

As in other years, it has been necessary to enlist the services of outside translators. The amount of translation done in that way for the General Translation Division has again been large: this is due particularly to the heavy volume of parliamentary committee proceedings.

Total Work Done

The translation done by the Bureau or outside during the year 1961-1962 represents an increase of 11 per cent compared with the previous year.

Co-operation with Other Bodies

Translators were called upon to give assistance to other official bodies, for example, in marking translation examination papers for the Civil Service Commission, and reviewing candidates' records in promotional competitions; in addition, assistance is given to various departmental and inter-departmental committees such as the Board of Geographical Names, Department of Mines and Technical Surveys.

Terminology Service

During the past year, the Terminology Service published several terminological bulletins and several others are in preparation. The service is revising older bulletins and bringing them up to date. A plan is under consideration to make these documents available to the public.

The Terminology Service keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This Service co-operates and exchanges information with, among others, the Comité d'étude des termes techniques français, of Paris.
